## Summary

Java Backend Developer skilled in Spring Boot, Microservices, REST APIs, Kafka, Docker, and JWT Authentication. Experienced in building scalable backend systems with secure authentication, distributed architecture, and database integration using PostgreSQL and MongoDB. Strong foundation in DSA, OOP, API design, and backend architecture through real-world projects and internship experience.

## Technical Skills

**Languages:** Java, ABAP, Python

**Backend:** Spring Boot, Spring Security, REST APIs, JWT, Hibernate/JPA

**Database:** MongoDB, MySQL

**Tools:** Git, GitHub, Postman, Swagger, Maven, JUnit, gRPC, Hazelcast, Docker, Kafka

**Others:** DSA, Multithreading, OOP, LLD, Machine Learning

## Experience

### Beangate IT Solutions

Remote

*Intern – Java Backend Developer*

Beangate provides innovative software solutions and IT services worldwide

- Developed Spring Boot REST APIs with validation, authentication, and database integration.
- Built modular backend services using Java and OOP principles.
- Optimized API workflows and database queries for better performance.
- Contributed to debugging, refactoring, and code reviews.
- **Projects Worked On:** [Beangate](#), [Divya Jyoti NGO](#)

## Projects

### EosCarbon – Blue Carbon MRV Solution

[GitHub](#) | [Live Demo](#)

*Spring Boot, MongoDB, JWT, Microservices, AI Integration*

- Developed microservices-based backend systems for onboarding and verification workflows.
- Designed scalable MongoDB schemas for environmental datasets.
- Implemented JWT authentication, pagination, sorting, and exception handling.
- Integrated AI-assisted geospatial verification workflows.

### HelixCare – Microservices Healthcare Platform

[GitHub](#)

*Spring Boot, Kafka, Docker, PostgreSQL, JUnit, TestContainers*

- Designed and implemented 6+ backend microservices using Spring Boot and Kafka.
- Containerized services using Docker for deployment and scalability.
- Built PostgreSQL schemas and secure service communication.
- Wrote unit and integration tests using JUnit and TestContainers.

### Auz – Personal AI Desktop Assistant

[GitHub](#)

*Python, Speech Recognition, Automation*

- Built a voice-controlled desktop assistant for automating daily system tasks.
- Integrated speech recognition and text-to-speech functionality.
- Implemented automation commands for applications and media control.

## Education

### Rajiv Gandhi Proudhyogiki Vishwavidyalaya

India

Bachelor of Technology – Artificial Intelligence and Machine Learning

Sep 2023 – Jun 2027

CGPA: 8.25 / 10

### Shining Public Higher Secondary School

India

10th and 12th Grades

2021 and 2023

Scores: 89% (10th), 84% (12th)

## Achievements

- 3-Star Coder at CodeChef and 3-Star Coder on HackerRank (Java).
- Recognized by ISRO for idea submission at Bharatiya Antariksh Hackathon 2025.
- Earned Google badge for Scalable Java Microservices.
- Secured 1st place in the Technocrats Hackathon among 160+ teams.

## Certifications

- SAP Certified – Back-End Developer – ABAP Cloud
- Anthropic Claude Code in Action Certification
- Accenture Coding: Development & Advanced Engineering Simulation
- GeeksforGeeks Campus Mantri Program — Technical Head
